

# 2021 Webinar Calendar

---

March 17 and Hands-On March 23-24	Particle Size Analysis with Hands-On Operation Training Measurement System Analysis
April 6-8 and Hands-On	Thermal Analysis by DSC and TGA with Hands-On Operation Training
April 20-23 and Hands-On	Metal Analysis using AAS, ICP-OES, and XRF with Hands-On Operation Training
May 4, 6, 10, 12, and 14 May 19-20	Material Science and Engineering Water Analysis Techniques
May 25-28	Failure Analysis Techniques
June 4 and Hands-On June 8-9	Inductively Coupled Plasma-Optical Emission Spectroscopy with Hands-On Operation Training Restriction on Hazardous Substances
June 14, 16, and 18	Reliability Engineering and Management

# 2021 Webinar Calendar

July 9 and Hands-on	Atomic Absorption Spectroscopy with Hands-On Operation Training
July 27-30 and Hands-on	Scanning Electron Microscopy and Energy Dispersive X-ray Spectroscopy with Hands-On Operation Training
August 17, 19, 23, 25, and 27	Material Science and Engineering
September 15-17 and Hands-on	Thermal Analysis by DSC and TGA with Hands-On Operation Training
September 23 and Hands-on	Particle Size Analysis with Hands-On Operation Training
October 5-6	Elemental Analysis by EDX and XRF
October 12-15 and Hands-on	Metal Analysis using AAS, ICP-OES, and XRF with Hands-On Operation Training
October 25, 27, 29, and Nov 1	Failure Analysis Techniques
November 10 and 12	Water Analysis Techniques
November 22, 24, and 26	Reliability Engineering and Management

- Trainings can be customized according to your organizational needs.
- Customer-site trainings are also available.
